In view of the low level of water in Krishnarajasagar Reservoir, it has not been found practicable to have week-end illumination of the entire Gardens at Krishnarajasagar. It has become necessary to resort to partial illumination,—only the first terrace of the Gradens on the South bank of the river being illuminated, while the Garden on the North bank will be fully illuminated. This partial illumination will be given effect to immediately and will be in force till such time as the Reservoir picks up the required level.

OCCUPATION OF THE MILLER'S TANK BED AREA BY EX-SERVICEMEN.

Many of the ex-servicemen recently released from the State Forces had been permitted by the Military Authorities to continue to occupy the Military Quarters for a stipulated period, as a special concession, on the request of the Mysore Government. After the stipulated period, they had to leave the quarters. Some of them put up sheds in the Miller's Tank Bed area in the Civil Station, Bangalore. The Corporation Authorities refrained from evicting them, on a request from the Government, in view of the hardships of the persons and the special circumstances. However, it was repeatedly pointed out to the ex-servicemen that the area being a tank bed was unsuitable and was likely to be flooded during rains. In the meanwhile, efforts were being made to find some suitable alternative place for them. About 100 sites in Jayanagar and about 100 small sites in Rajaji Nagar have already been reserved for them for allotment at upset price. As it was represented that the upset price fixed for those sites was too high for the ex-servicemen to pay, it is under consideration to allot those sites to them at half the upset price.

In the meanwhile, several others have also occupied the area unauthorisedly and it is learnt that many of them are not ex-servicemen of the M.S.F. released recently and that some of them have regular accommodation elsewhere.

The Government are aware of the hardships caused to these men by the recent rains which flooded the area. The Minister for Law and Education, the Minister for Public Health and Local Self-Government, and the Minister for Home Affairs and Agriculture, along with the concerned Officers, visited the area immediately after and all possible help was rendered. Alternative temporary accommodation in some choultries was offered immediately, but it was not taken advantage of by the men affected. Efforts are being made to find out suitable areas nearby to accommodate deserving men thus affected.

While the Government are anxious to provide as much assistance as possible to these men, they wish to impress on them that in allotting sites or land for temporary occupation, only the cases of such of those ex-servicemen of the Mysore State Forces that were released recently and affected as a result of integration would be considered on the basis of individual merits and unauthorised occupation in the Miller's Tank or any other area does not entitle the others to any special consideration in such allotment.

B. M. S. College, Bangalore ...	...	160

There has been a slight modification of the Government Order No. E. 2839-48—Uni. 97-51-4, dated 11th June 1952 in regard to the allotment of seats in the technical institutions. Government have now decided that after reserving 15 per cent of seats to the Depressed Classes, the balance should be divided equally between the Backward Classes and the General Classes.

The University had also indicated that the number of seats in the Inter Science Class should be reduced on the ground that the three-shift system was not working satisfactorily in some institutions. Government have considered this matter and have passed orders stating that no change is now necessary and that the number of admissions to the Inter Science Class should not be less than the number admitted in 1950-51 and in 1951-52.

Harmful Effects of Khesari Gram and Khesari Dhal.

The Government of Mysore have been advised that Khesari gram (Lathyows sativus), Khesari dhal and their products like 'Long-flour' are unwholesome and unfit for human consumption and harmful to the health of the people. 'Long-flour' is a flour, cream yellow in colour, resembling the flour of Bengal gram. Made from Khesari Dhal, this dhal and its flour are mostly imported from Bombay State and contain poisonous substances known as cyanogenetic glucosides. Khesari dhal is sometimes used by traders for adulterating gram-dhal or tur-dhal and the flour for adulterating the flours of Bengal and other edible grams. It will be dangerous if the genuine dhal or the flours of such dhals are adulterated with this poisonous variety of dhal or its flour.

The public stockists and prospective importers of such articles are, therefore, informed that the sale or the exposure or hawking for sale, or the keeping, storage or preparation for sale of these articles will constitute an offence under Section 108 of the Mysore Public Health Act, 1944 and that action will be taken under Section 330 of the City of Bangalore Municipal Corporation Act, 1949, in the City of Bangalore and under Section 172 of the Mysore City Municipalities Act, 1933, and Section 155 of the Mysore Town Municipalities Act, 1951, in the City and Town Municipalities of the State.

Press Note.

As announced by the Chief Minister on the floor of the Legislative Assembly on the 10th July 1952, Government have constituted a fund called "the Chief Minister's Fund" with the purpose of attracting donations from individuals and institutions all over the State for the relief of distress in the affected areas of the State. The public are well aware that the expenditure from the State Exchequer on distress relief in the several districts has already been incurred in an unprecedented measure. The time has now come for Government to mobilise private charity also in the matter and to pool the entire charitable resources of the State for meeting the task of relieving distress which is assuming more and more serious proportions owing to persistently adverse seasonal conditions.

It is the Government's intention that donations in the form of cash, grain or fodder should be accepted and arrangements made for the speedy transport of donations in kind to the distress areas. The Deputy Commissioners of the Districts have been asked to take action for the immediate formation of Committees in this behalf to mobilise collections for the fund and to disseminate widely the Chief Minister's appeal for donations.

Press Note

Health of Live-stock in Mysore State during June 1952.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrahagic-septicæmia, Anthrax, Ranikhet, Sheep-pox, Foot and Mouth, Contagious-goat Pleuro-pneumonia and Rabies were encountered in the State during June 1952. Altogether 214 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 230 villages during the previous month. The number of outbreaks was highest in Bangalore, Shimoga and Mandya Districts, while Hassan, Chitaldrug and Chikmagalur Districts were least affected. These diseases accounted for 1,169 attacks, of which 669 succumbed. The departmental staff conducted 29,596 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth diseases. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Five outbreaks of Rinderpest were registered in Challakere and Pavagada Taluks accounting for 56 attacks among cattle, of which 28 succumbed. Prompt measures

of control were undertaken by the department to check its spread and 2,075 cattle in the infected villages and 1,578 cattle in 7 neighbouring villages were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 120 villages accounting for 109 deaths, as against 135 villages accounting for 80 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 8,421 animals, as against 12,603 animals during the previous month.

MISCELLANEOUS DEPARTMENTS.

OFFICE OF THE COMPILER, *MYSORE GAZETTE*, BANGALORE.

NOTICE

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919 in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. &. S. 44-25-2, dated 13th September 1926).

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. As per G. O. No. E. 1892-1902—P. & S. 12-23-13, dated 8th December 1923, and G. O. No. 5139-95—P. & S. 52-30-1, dated 12th November 1930, the English or the Kanarese portion of the *Mysore Gazette*, consisting only of the five Parts, *viz.*, I, II, III Section 1, III Section 3, IV and V taken together or an entire copy of the English or Kanarese Gazette containing all the parts will be supplied only to Patels, Nad-Patels, Shanbhogs and Sheikdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time or that he is on leave for a

period not exceeding three years. Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such money should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

EMPLOYEES' STATE INSURANCE SCHEME.

The Employees' State Insurance Act, 1948 (XXXIV of 1948) as amended by the Employees' State Insurance (Amendment) Act, 1951, (53 of 1951) has now been brought into force throughout the country except the State of Jummu and Kashmir.

2. With the inauguration of the Scheme at Delhi and Kanpur on the 24th of February, 1952, by the Prime Minister, the Employees' State Insurance Corporation has commenced to administer in these two places the benefit provisions of the Scheme. The Scheme will be extended in its full operation in the principal zones of the country before the end of 1954. Simultaneously from the above-mentioned date, *viz.*, the 24th February, 1952, the provisions relating to Employer's Special Contribution payable by Employers in the country have been brought into force in all the other Part 'A', Part 'B' and Part 'C' States except in the State of Jammu and Kashmir.

3. The Act applies to all fectories using power and employing 20 or more persons. "Seasonal" factories as defined in the Employees' State Insurauce Act, 1948 and mines subject to the Indian Mines Act are excluded from the scope of the Act. In any factory, employees whether temporary, permanent or casual and clerical and supervisory staff except those drawing a remuneration exceeding Rs. 400 per month come under the purview of the Scheme. Also, persons in the Armed Forces do not come within the scope of the Act.

4. To administer the provisions of the Act, the Employees' State Insurance Corporation has been set up under the Act with effect from October, 1948. The Corporation which is a statutory and an autonomous body functions with its Head Office in New Delhi. It is a quasi-Government organisation under the control of the Ministry of Labour, Government of India. The Corporation has also set up five Regional Offices in the country, one each in Madras, Bombay, Calcutta, Delhi and Kanpur. The Regional Offices organise the collection of the Employer's Special Contribution and also undertake the spade work necessary before the benefit provisions of the Act could be brought into force in their respective areas.

AT KANPUR AND DELHI.

5. At Kanpur and Delhi, where the Scheme has been inaugurated, all employees pay, from the date of the inauguration, a rate of contribution roughly of about 2¼ per cent of their wages. Their employers contribute, with effect from the same date, 1¼ per cent of their wage roll. The insured persons under the Scheme are entitled to free medical treatment and, besides, a cash benefit of roughly 7/12ths (seven-twelfths) of their wages in cases of sickness, maternity and disablement. If an insured person happens to die as a result of the employment injury, his dependents, *i.e.*, the widow and minor legitimate or adopted sons and minor legitimate unmarried daughters, receive, under the Scheme, Dependents' Benefit. The Scheme provides also for payment of cash benefit to other dependents if no widow or legitimate child is left behind. The Corporation has taken over from the employers, *in respect of employees covered by the Scheme*, the employer's liabilities under the Workmen's Compensation Act, 1923 and the Maternity Benefit Act, subject to the conditions specified in the Employees' State Insurance Act, 1948.

IN ALL OTHER PART 'A', PART 'B' AND PART 'C' STATES OTHER THAN JAMMU AND KASHMIR".

. With effect from the 24th of February, 1952, mployers" are to contribute at the rate of three-fourth cent of the wage roll of their "Employees". The compa-ve lower percentage of the contribution is due to the that, in these areas, the employers will continue to meet r liabilities under the Workmen's Compensation Act, 3, and the Maternity Benefit Act. This contribution ed the Employer's Special Contribution is payable in ect of each quarter ending on the 31st of March, 30th une, 30th of September and 31st of December. The ributions have to be paid within thirty days of the last of the quarter in respect of which such contribution is . In addition to this, every employer has to submit Regional Office within 45 days of the close of the a return in a form (Form SC-2) specifically provid-refor by the Corporation. These contributions l to the rupee should be paid into any branch of the al Bank of India.

All "Employers" in the State of Mysore are under ion to pay the Employer's Special Contribution as laid down in the preceding paragraph. For this purpose, the Madras Regional Office of the Employees' State Insurance Corporation is the proper authority in respect of employers situated in the Mysore State. The *benefit* provisions of the scheme are expected to commence in the Mysore State with effect from some time in 1953. Until such date, the employers in Mysore should continue to pay three-fourth per cent as Employer's Special Contribution as specified in the preceding paragraphs. No contribution is payable by the "*employees*" during such period and nor are the employees entitled to any benefits under the scheme. Until the full scheme is brought into force as already stated some time in 1953, the employers in the Mysore State would have to continue their existing arrangements both as regards their liabilities under the Workmen's Compensation Act and the Maternity Benefit Act. When once the full scheme is implemented in the State, the employers and employees in the Mysore State would be placed on a par with the employers and employees in Kanpur and Delhi.

8. It has been brought to the notice of the Government that some employers in the State have not been paying the contributions for the simple reason that the Act has not been enforced by the State Government. This view is not correct as the Employees' State Insurance Scheme is a scheme that should be enforced by the Central Government. As such, the scheme to the extent stated above is already in force in the State and any employer in the Mysore State who does not comply with the requirements thereof, is likely to expose himself to the penalties provided therefor in the Employees' State Insurance Act itself. However, for the information of the employers of Mysore, the State Government would publish, as far as possible, all relevant notifications that may be issued by the Central Government and the Corporation by virtue of the powers conferred on them by the Act, as and when they are issued.

Low Storage in Krishnarajasagar—August, 1952.

There has been an unprecedented failure in the South-West Monsoon this year with the result that the water level in Krishnarajasagar has gone down to 86·29 or only 14¼ ft. above the F.SL. of Visvesvaraya Canal. This level is the very lowest on record ever since water was allowed for Irrigation under the Reservoir. The net available storage at present above +60, the bed level of the Visvesvaraya Canal, is only about 9,500 M.C.ft as against 44,000 M.C.ft. when the lake is full.

From a study of the figures for impounding from July to October during the last 20 years, it is seen that the possibilities of further receipts into the Reservoir in the coming months are not encouraging. This is an unexpected situation and it requires the fullest co-operation of and sacrifice on the part of the raiyats in the Visvesvaraya Canal area to tide over the situation and it is hoped that they will rise to the occasion.

The available water will at the most be sufficient for about 30,000 acres out of the programmed area of about 85,000 acres. The raiyats are requested to extend their co-operation in making the most judicious use of the available water.

Press Note.

REVISION OF FOOD POLICY IN MYSORE STATE.

Government had, in their Press Note dated 10th April 1952, announced revision in Food Policy in the State. Since then, various suggestions for further relaxation have been put forward and the entire question has been discussed on the floor of the Legislative Assembly. After deep consideration and in the light of the discussions in the Assembly, Government are pleased to further modify the Food Policy as follows :—

1. Relaxation of movement restrictions outside Statutorily Rationed Areas.

With effect from 1st May 1952, free movement of foodgrains was given effect to except from and into the statutorily rationed areas. It was also notified that free trading by traders was not permitted and that movement of foodgrains for purposes other than *bona fide* consumption was illegal. This policy will be continued and further relaxation will be made. Movement of large quantity of foodgrains by lorries, buses and trains will be prohibited except under permits to be issued by the Officers authorised to issue the same. Permits in such cases will only be granted for movement of grains from surplus to deficit areas on the traders' account, who are to be specially licensed for the purpose.

2. De-rationing Mysore City.

Free movement of foodgrains was so far permitted in rural areas. Government have now gone a step further and de-rationed Mysore City also.

3. Licensed Dealers.

At present, Government have the monopoly of trade in foodgrains both with regard to procurement and with regard to the distribution to the consumers through Government Depots, Licensed Dealers and Co-operative Societies. With the revision in the Food Policy, statutory rationing will be confined only to the Cities of Bangalore, Kolar Gold Fields and Davangere and the rest of the areas in the State will be de-rationed and there will be no restriction with regard to the movement of foodgrains except to the extent specified above. Trade in foodgrains would, however, be in accordance with the prices that are fixed by Government from time to time and the trade in foodgrains would be confined even in the de-rationed areas only to dealers who are specially to be licensed for the purpose. These licensed dealers will be responsible for the purchase of foodgrains directly according to controlled rates and distribution to the consumers at the retail rates that are notified by Government from time to time.

4. Movement into the Statutorily Rationed Areas.

At present, no person can bring into the statutorily rationed areas more than two seers of foodgrains per head. There have been repeated representations that the quantitative limit with regard to the foodgrains permitted to be brought into the statutorily rationed areas needs to be enhanced. Government have, on further consideration,

decided to permit movement of foodgrains into the statutorily rationed areas up to five seers per head.

5. Collection of Land Revenue in kind.

In the Press Note dated 10th April 1952, it was announced that Government intended to enforce the system of collection of land revenue in kind instead of in cash. On further examination, it is now felt that in view of the practical difficulties, Government have decided to continue to collect land revenue in cash only as heretofore and abandon the idea of enforcing the collection of revenue in kind.

6. Levy System.

As already announced in the Press Note dated 10th April 1952, the procurement of foodgrains by "Levy System" is under examination and details of the scheme are being worked out and will be announced shortly, well in time, before the next harvest.

(P. N. No. 91—14-8-52).

Press Note.

The necessity having arisen in the matter of assisting agriculturists in the State to secure manure, seeds, agricultural implements and other necessities, Government sanctioned in 1949 a scheme for the establishment of Multi-purpose Co-operative Societies. Accordingly, 82 Taluk Multi-purpose Co-operative Societies have been established and have been registered all over the State. With a view to making these societies self-supporting and not always dependent on Government assistance, the several concessions granted to them in the shape of staff, transport charges, rents for godowns, etc., have since been withdrawn by Government.

It is heartening to note that a good number of these societies are self-supporting and are working in a satisfactory manner. It is also true that several others that are working honestly, have been handicapped by lack of finance and, therefore, have not been able to meet their normal expenditure. Government have carefully considered this problem of extending help to such of those societies as really deserve assistance and have now been pleased to allot a sum of rupees one lakh for the year 1952-53 for the sole purpose of giving pecuniary assistance,—Rs. 100 per month per society to be given as subvention only to such of those Taluk Multi-purpose Co-operative Societies as really deserve encouragement in order to work honestly and satisfactorily. This concession is applicable only for the current year.

The Registrar of Co-operative Societies has been authorised to distribute this amount, keeping in view the purpose behind the sanction of this concession. He has been requested to see that a judicious use is made of this amount. He has also been requested to see that wherever help is to be given, such help is rendered expeditiously.

(P.N. No. 92—14-8-1952).

Press Note.

Abolition of Rural Development Committees.

In pursuance of the scheme for the re-organisation of the Rural Development work started in October 1948, District and Taluk Development Committees were constituted during February and March 1949. These Committees were vested with powers of sanctioning estimates of Rural Development works and sanctioning expenditure in regard to certain items. Consequent upon the promulgation of the Village Panchayet and District Boards Act of 1952, and also as a measure of economy, the Rural Development Committees have been abolished.

During the past three and half years, these Rural Development Committees have generally met regularly and transacted business efficiently with enthusiasm and sense of responsibility. Apart from tendering valuable advice to Government in matters of rural development, the Committees have considerably facilitated the execution of rural development works and have striven hard in several places to kindle local initiative. Government wish to thank the Chairmen and Members of the District and Taluk Development Committees for the work they have done and to place on record their appreciation of the services rendered.

Press Note.

In Press Note No. 33, dated 12th May 1951, an announcement was made to the effect that a prize of Rs. 2,000 will be awarded by the Indian Central Oil Seeds Committee to any person or body who designs the best model of hand-driven decorticator and it was specified that entries should be sent to the Secretary, the Indian Central Oil Seeds Committee, Ministry of Food and Agriculture, Room No. 345, Block No. 9, Shah-ha-Jahan Road, New Delhi, so as to reach him not later than 30th April 1952.

The Indian Central Oil Seeds Committee has now announced that the last date for the receipt of entries has been extended to 31st August 1952. Intending competitors are requested to note the extension of the last date.

(P.N. No. 94—18-8-52).

Press Note.

Distress Relief.

In view of the fact that it has not been found possible to afford relief in the distress-affected areas of the State solely through the Distress Relief Funds, Government have decided that the funds at the disposal of the Grow More Food Campaign may be partly diverted to this work. They have, accordingly, directed that the Public Works Department might take up, urgently, distress relief works wherever found necessary, and to see that employment is given to the unemployed in these regions. Government have also decided on the amounts to be allocated to each district as follows, for the current year:—

Kolar District	...	...	Rs. 3 lakhs

Tumkur District	...	...	Do
Shimoga District	...	...	Rs. 1½ lakhs

Malnad Forests to relieve Fodder scarcity.

The adverse seasonal conditions in the several parts of the State have created acute problems of scarcity for food as well as fodder. The problem has assumed alarming proportions, with reference to cattle on account of fodder scarcity.

Since forests act as great reservoirs of grazing resources to tide over the country in critical times, Government have already taken the most liberal measures as early as 1948 to abolish "Hul-banni" and permitted the free grazing of cattle practically in all the State Forests. But, unfortunately the prolonged drought has affected the grazing facilities and resources available in our maidan forests also, leaving to our succour only the malnad forests where, providentially, fodder is still available in plenty.

The problem now is to make this malnad fodder available to the famished maidan cattle. There are two ways of doing it. The first is to transport fodder to the cattle. This however, is beset with a number of practical difficulties involving the harvest of grass, its transport, storage and distribution. Apart from the cost and the economics of this proposition, it is the time factor that is involved in this operation that causes anxiety since the essence of this problem is to render the maximum relief as quickly as possible.

For these reasons the second alternative, namely, to move the cattle temporarily to the grazing forests is preferable. It is of course realised that all cattle cannot be moved enmasse from their homes to these temporary pastures. It is, therefore, suggested that the cattle needing fodder facilities be classed into two broad categories. The first category will consist of what may be called as essential cattle—those which are milking and which are used by the villager for his farming needs. These have perforce to be kept on the spot. The second category will consist of those which may be termed non-essential in the sense that they are not needed at the moment in the village. These can, with advantage, be temporarily moved on to the malnad forests.

Having in view the geography of the State, the non-essential cattle from Chitaldrug District can migrate to the Joldhal Forests while non-essential cattle from Kolar and Tumkur Districts can be moved on to Tarikere in Bhadravati Division from where they will be allocated and distributed amongst the several forest areas where grazing facilities are available. By this method, it would be possible to render immediate relief to the starving cattle in our distress areas. The Forest Department would give every facility for the reception and allocation of such cattle at the two receiving centres, *viz.*, Joldhal and Tarikere. Goats do not come under the category of "Cattle" for these concessions, and continue to be strictly prohibited from forests.

The migration of cattle over considerable distances naturally involves the provision of feeding and watering arrangements *en route*. Fortunately, the tanks and ponds are just now holding water on the principal march route from the maidan to the receiving centres, and it will greatly facilitate matters if this migration is completed while the tanks are still able to provide water.

In making these arrangements, there is no doubt considerable risk to forest crop as such in areas thrown open to grazing. This can be minimised and even eliminated if only the public co-operate with the staff of the Forest Department in protecting the forest crop. Government appeal to the public to co-operate in this respect and secure maximum benefit to their cattle without endangering forest wealth.

(P.N. No. 96—19-8-1952).

Press Note.

Health of Livestock in Mysore State during July 1952.

In their order of severity, outbreaks of Rinderpest, Black-quarter, Haemorrahagic-septicaemia, Anthrax, Sheep-pox, Ranikhet, Foot and Mouth and Contagious-goat pleuro-pneumonia were encountered in the State during July 1952. Altogether 191 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 214 villages during the previous month. The number of outbreaks was highest in Bangalore, Shimoga and Chitaldrug Districts, while Hassan, Mysore and Mandya Districts were least affected. These diseases accounted for 887 attacks, of which 633 succumbed. The departmental staff conducted 37,655 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Seven outbreaks of Rinderpest were registered in Sagar, Hiriyur, Hosadurga, Devanahalli and Pavagada Taluks accounting for 128 attacks among cattle, of which 84 succumbed. Prompt measures of control were undertaken by the department to check its spread and 2,712 cattle in the infected villages and 5,044 cattle in 23 neighbouring villages were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 124 villages accounting for 24 deaths, as against 120 villages accounting for 109 deaths during the previous month. The special staff attached to the parasitic diseases control units of the department dosed 8,719 animals, as against 8,421 animals during the previous month.
